## Summary

Motivated B.Tech CSE (AI & ML) student with strong interest in Artificial Intelligence (Agentic AI) and Cloud Computing. Experienced in building full-stack and cloud-based applications with hands-on projects in RAG, monitoring dashboards, and blockchain verification systems. Passionate about solving real-world problems through scalable and intelligent software solutions.

## Technical Skills

- Programming Languages: C++, Java
- Web Technologies: HTML, CSS, JavaScript, Node.js
- Databases: MySQL, NoSQL

## Education

---

### VELLORE INSTITUTE OF TECHNOLOGY- Bhopal, Madhya Pradesh

*Bachelor of Technology (CSE Specialization in Artificial Intelligence & Machine Learning)*

2023 – 2027

CGPA: 8.62

## Academic Projects

---

### Vitality AI – AI-Powered Healthcare & Telemedicine App | Nov 2025 – Jan 2026

- Developed an AI-driven healthcare application to support telemedicine and patient care through interactive sessions and smart assistance.
- Implemented telemedicine session support including video consultations, live notes, and an AI assistant for real-time guidance.
- Built a health monitoring module for tracking vital parameters such as heart rate, oxygen levels, and stress indicators.
- Designed care workflows for patient recovery coaching (exercise, medication, diet guidance) and elder care supervision (alerts, reminders, vitals checks).

### TalentGPT – GenAI Resume & Interview Assistant (RAG) | Nov 2024 – Dec 2024

- Designed and developed a Generative AI-based resume analysis platform enabling users to upload resumes and receive role-based interview guidance using RAG (Retrieval-Augmented Generation).
- Implemented a resume ingestion pipeline (PDF parsing → chunking → embeddings → FAISS vector search) to retrieve accurate context and generate personalized interview responses.
- Built secure JWT authentication and PostgreSQL-backed storage to manage users, resumes, and query sessions efficiently.
- Developed a modern responsive UI using React + Tailwind and deployed the system using Docker Compose.

#### **CloudPulse – CloudOps Monitoring & Auto-Heal Dashboard | Jan 2025 – Feb 2025**

- Built a cloud monitoring system that collects and visualizes application health metrics including CPU usage, memory utilization, and request traffic in real time.
- Developed scalable backend APIs using Java Spring Boot with PostgreSQL persistence, enabling structured storage of metrics and incident logs.
- Implemented incident detection and auto-heal trigger mechanism that generates alerts and recovery actions during abnormal CPU load, improving service reliability.
- Containerized the infrastructure using Docker Compose and documented AWS-ready deployment architecture for EC2/RDS/CloudWatch integration.

#### **CertChain – Blockchain Certificate Verification App (Flutter + Web3) | Mar 2025 – Apr 2025**

- Developed a blockchain-based certificate issuance and verification system to prevent fraud by storing certificate hashes permanently on the Polygon (Amoy) testnet.
- Implemented smart contracts in Solidity (Hardhat) for certificate issuance and on-chain verification, ensuring tamper-proof authenticity.
- Built a certificate metadata backend using Node.js + Express + MongoDB, enabling retrieval and verification through certificate hash IDs.
- Created a mobile verification app using Flutter, enabling hash/QR-based certificate verification workflows.

### **Certifications**

---

- Cloud Computing (NPTEL – Elite) | Jan–Apr 2025 | Certificate ID: NPTEL25CS11S959800547 | Score: 65%
- IBM – Full Stack Application Development Capstone Project (Coursera) | Completed Apr 2025 | Credential: <https://lnkd.in/emcrSgpB>
- Neural Networks and Deep Learning (DeepLearning.AI – Coursera) | Credential: <https://lnkd.in/eMCJkAbV>
- AWS APAC – Solutions Architecture Virtual Experience Program (Forage) | May 2025 | Credential: <https://lnkd.in/divJ58pB>

## Achievements & Leadership

---

- Qualified Smart India Hackathon (SIH) by clearing the college round selection.
- Participated in GDG Kanpur Community Event (20 Dec 2025).
- Finance Analytics Intern at Vivek Khanna & Co.
- Event Lead, UX Club — VIT Bhopal (Current).
- Finance Lead, Fashion Club — VIT Bhopal (Current).
- Awarded Scholar Award (Class 12) for scoring 95%.
- Winner — Inter-School Handwriting Competition.
